Reaching Europe Ministries- North Macedonia

Paperwork and Goverment and moving Forward

Hello!

We have planted our first church here in Skopje in the middle of visa issues, the kind of thing that could stop a lot of people. It hasn't stopped us. When the government keeps us away, the Lord has faithfully sent others to watch over the church and ministry in our place. We're still applying for our visa in Macedonia, and while that process moves forward, so does the work.

This summer alone, we shared the gospel with hundreds of people, saw over 20 come to salvation, and watched many more come close. One young man who found us through a Facebook ad is now a faithful member of our church, reading Scripture he's never opened and asking questions he never knew to ask.

So alongside the church plant, and while we wait on visa approval, we're expanding an outreach that doesn't need a visa to cross a border, reaching people online and in person across the Balkans the same way Paul reached the marketplace, the roads, and the riverside in his day. There is so much more going on in our ministry. I would love to chat with you; please reach out and we can set up a time.

This short video shows what that looks like in practice.
