Church planting in Macedonia

Dear Church,

I have mentioned before that we live and travel with our home. It is a 26 foot converted cargo trailer. We have well over 40k miles on the trailer this past year and the wear and tear has taken its toll. A few weeks ago I began to have major problems with the tires. End of the story, we needed 2 new axles and 4 new tires. During the process I was destroying tires very quickly and bought several knowing that they too would be destroyed. I share this story because we clearly saw the hand of God through this problem. As you can see in the picture, I bought a tire with no rim, I KNEW that I would need it. We were driving through the heart of Texas where at times, there was no town for 50 miles behind and no town for 50 miles in front. Wouldn't you know it, just when I needed that rim less tire put on a rim there was a man with the needed tools to change it for us. Gods hand of protection is amazing!

The Redeemed project is making great progress. While it involves several steps, I'd like to share our ultimate goal with you. Redeemed is a booklet I've created, using scripture to narrate the Bible story from Creation to the Cross. You can find it on Amazon if you're interested.

Here's the process: write the book, publish it, locate a high-volume printer, professionally record the audio, produce a high-quality 20-minute video, and share it on various social platforms. Once we complete this, it can become a template for translation into other languages.

This tool's primary purpose is to guide those who are lost toward the saving grace of the Saviour. Through social media, it can reach a broader and faster audience, covering more ground than I can on my own. It's meant to serve as a key that opens up conversations and creates opportunities for the Lord to connect us with people. These new friends can receive further discipleship and lead to new local churches.

I'm excited about this opportunity, and I have faith that the hard work and dedication we invest in this project will bear fruit for the Saviour. I ask for your prayers and invite you to consider contributing to this project. While there are associated costs, I trust in the Lord's provision.
